# CATALIN WAACK

## Software Engineer | Product Developer | Contractor

+1 (786) 727 6503 @ hello@catalinwaack.com

## SUMMARY

Over 15 years ago, my tech journey began out of pure curiosity in Cybersecurity. Today, that curiosity has grown into a wide skill set spanning Coding, Design, Marketing, Business, UX, and DevOps.

After working with many Technologies, I decided to set my main focus on TypeScript, React and Nextjs, and I'm working for example with libraries like Tailwind, Zustand and React Query. I help clients turn their ideas into solid MVPs (very fast) not only by building it but also by advising to success on the market. I work independently or as part of a team, and my adaptability allows me to fit into any work culture.

I'm an easy-going professional and I take challenges with creativity and pragmatism.

## EXPERIENCE

### Founder

**Waack International LLC**

2022 - Present  Remote

### Contract: Product Engineer

**BREAKEATS LLC**

2024 - 2025  San Francisco Bay Area - Remote

Worked alongside a former NVIDIA manager (holder of multiple patents) to develop a proof of concept in signal processing aimed at attracting early-stage investors

- Research and Development (R&D) for a patent - involving audio and motion signal processing, focused on real-time synchronization and pattern recognition across iOS and server platforms
- Applied advanced techniques (e.g., FFT, sensor fusion) to analyze sensor data from multi-modal inputs including iPhone accelerometer/gyroscope
- Built tools in Python and React for sensor data visualization, real-time analysis, and processing, plus iOS app in Swift/SwiftUI for motion capture
- Swift, SwiftUI, CoreMotion, AudioKit, FastAPI, librosa, matplotlib, scipy, numpy, pandas, React, Tailwind, TypeScript, LiveKit, Docker, Kubernetes

### Contract: Frontend Developer

**Verlag des Österreichischen Gewerkschaftsbundes GmbH**

2024  Vienna - Remote

Worked with the design team to migrate an extensive portfolio of websites to Adobe Experience Manager and implemented new designs to improve user experience and functionality.

- Tailwind CSS, React, AEM, BEM

## TECH EXPERIENCE

**15 Years+ Experience in JavaScript**
Built interactive UIs, internal tools, and fullstack applications.

**10 Years+ Experience in Nodejs**
Built small and big scalable backends for event platforms and eLearning tools.

**4 Years+ Experience in TypeScript**
Maintainable Code in most projects.

**4 Years+ Experience of Nextjs**
Integrated and managed frontend and backend for multiple projects.

## SKILLS

React, Next, AWS, Tailwind, Nodejs, Laravel, Shopify, Stripe, UX, GIT, MySQL, MongoDB, AI, API, AWS, UI, MVP, TypeScript, Strapi, Supabase, Vercel, Clean Code, SOLID, LEAN, DRY, Architecture, Python, REST, Serverless, AEM, Frontend, Backend, Vibe Coding

## EXPERIENCE

### Contract: Senior Frontend Developer

**DAYONE GmbH**

2024 Berlin - Remote

https://dayone.de

I worked with a team of more than 10 people to develop a scalable and serverless event management platform from concept to launch for the design agency DAYONE. Their clients include major companies like KIND, Deutsche Bahn, Volkswagen, and Deutsche Telekom.

- TypeScript, React, Contentful, AWS

### Contract: Lead Product Engineer

**Syntax GmbH für Aus- und Weiterbildung**

2023 - 2024 Berlin - Remote

https://www.syntax-institut.de/

I build the B2C eLearning platform, it is focused on teaching mobile development to professionals. Starting from the initial concept, we brought the product to market as a fully operational service with paying customers in just three months.

- Implemented Architecture
- Build Frontend, Backend and integrated Stripe, Strapi and Calendly
- Figma to Code
- TypeScript, Nextjs, Stripe, Strapi, Sentry, Calendly, Tailwind

### Contract: Product Engineer

**edeltravel Luxusreisen GmbH**

2022 - 2023 Düsseldorf - Remote

https://edel.travel

I created a design framework based on Tailwind, it is designed for non-technical users in the luxury travel segment.

- Tailwind, PHP

### Contract: Senior Fullstack Engineer & Product Manager

**Tailorwine GmbH**

2022 Hamburg - Remote

https://www.tailorwine.de

Development of the MVP, targeting B2B customers. The product used data from the B2C sector to demonstrate its value, resulting in a product that users were willing to pay for. We acquired clients like REWE and EDEKA.

- TypeScript, React, Tailwind, Sentry, Strapi

### CTO

**VOXR GmbH**

2017 - 2020 Hannover - Remote

VOXR is a multiple award-winning meeting innovation used by the German Government and 7 out of the top 10 DAX Companies. Build a scalable product without frameworks, robust enough for live events to deal with bad internet connections

- Received a share of the company's revenue for being one of the standout employee
- I progressed from an entry-level trainee role in business development to the executive position of Chief Technology Officer (CTO)
- I build a scalable product used in TV shows and live events
- During the COVID-19 outbreak, I pivoted to different product lines, saving the company during an extremely critical period
- Implemented automation within the company's marketing processes

## EDUCATION

### Computer Science

**Technische Universität Braunschweig, Germany**

2014 - 2016

### Technical College

**BSZ Stendal, Germany**

2013 - 2014

### Government-certified technician assistant for IT

**BSZ Stendal, Germany**

2011 - 2013

## EXPERIENCE

### Frontend Developer

**msg DAVID GmbH**

2016 - 2017 Braunschweig, Germany

With over 9,000 experts in 28 countries, the msg group is represented in the world's most important markets.

- Early adopter of Angular, began to work from version 1.2, despite the challenges presented by a lack of extensive documentation
- Developed the relocation platform used by main executives to manage the company's relocation process into a new building
- I collaborated with various teams, such as Controlling and a specialized unit, to support interdisciplinary work

### Junior Data Analyst

**Peter L. Reichertz Institute for Medical Informatics**

2016 Braunschweig, Germany

The Peter L. Reichertz Institute for Medical Informatics (PLRI) is a collaboration between the TU Braunschweig and the Hannover Medical School (MHH). Together, important advances in medical information acquisition and information management can be achieved.

- Developed sensory technology for health measurements in hospital settings
- Awarded a monetary prize in an interdisciplinary idea contest for developing a solution designed to assist people suffering from dementia

### DV Coordinator

**Technische Universität Braunschweig**

2015 - 2016 Braunschweig, Germany

TU Braunschweig, is the oldest technical university in Germany and a member of TU9, an incorporated society of the most renowned and largest German institutes of technology.

- I was the IT administrator at the Institute of Philosophy, managing the network, workspaces and providing guidance on all technical matters
- Established a secure backup system for the department
- Maintained and configured the Linux server system
